Dressings

Silicone Foam Dressing (Self Adhesive)

Suitable for low to high exudative wounds

Can be used for all stages of wound healing

Can be used for the following purposes:

1. First to third degree burns
2. Skin graft donor and recipient sites
3. Ulcers, pressure sores and cavity wounds
4. Post-surgical wounds
5. Infected wounds with copious exudate

The foam dressing absorbs excess exudate and offers a waterproof bacteria resistant environment.

Size: 10cm by 10cm (10 pcs per box) and 5cm by 5cm

♥ Insoles, cooling and heating packs

Gel Insoles

These soft soothing liquid-gel filled inner insoles are designed to fit easily into any type of shoe, boot, or sneaker.

The gel filled insoles gently massage your feet, improving blood circulation, and relaxes your feet as you stand.

Made from non toxic glycerine and water solution.

PRODUCT DESCRIPTION	PRICE
Gel Insoles	\$10.00

Nylon Gel Pack

This pack features a gel that retains heat and coolness for a minimum of 50 minutes.

It remains soft and flexible after freezing, even in temperatures as low as -20 degrees Celsius.

It is convenient, handy and your best partner for home healthcare. Flexibility allows it to mold to your skin contours, unlike traditional ice packs.
